NAVEEN KUMAR J

FULL STACK DEVELOPER

naveenjs.be@gmail.com • 9566702656 • LinkedIn • Portfolio

CAREER OBJECTIVE

Full-Stack Developer with 3 years of experience designing and building scalable applications across diverse domains, including Digital Therapeutics, Network Provider platforms, Kids' Learning solutions, and B2B/B2C Dashboards. Adept at translating complex business requirements into intuitive, high-performance products, with a strong focus on usability, scalability, and reliability. Passionate about leveraging cross-domain insights to build impactful solutions and looking to contribute this versatile experience to an innovative, forward-thinking development team.

WORK EXPERIENCE

Jr Full Stack Developer – *July 2025 – Present*

UX Mint LLP | *Chennai*

- **Collaborated on the Sify Technologies project,** involving the development and maintenance of the NSE project, network dashboards, and customer portals.
- **Leveraged Node.js, Next.js, and Angular** for full-stack development, ensuring robust and scalable application performance; integrated and managed MongoDB databases to handle complex data requirements and efficient retrieval for dashboards and portals.
- **Contributed to the Octakidz project,** a kids' learning platform, by developing a web interface where kids complete activities and upload answers; integrated the Mistral AI model to evaluate and analyze student submissions. Built the platform using Angular, Node.js, and Python, and developed a cross-platform mobile app using Angular Ionic.
- **Worked on WordPress, Shopify, and React Native** mobile apps for various client projects.

Full Stack Developer – Golang - *February 2025 – September 2025*
Freelancing for KK Transports | *chennai*

- **Developed backend services** using Go (Golang) for an Admin Dashboard and Employee Management Portal.
- **Built frontend interfaces** using React.js and integrated them with backend APIs to support administrative and employee-management workflows.
- **Designed and worked** with MySQL databases to manage application and employee-related data.
- Used **Amazon S3** for cloud-based file storage and Docker and Kubernetes for containerization and application deployment/orchestration.
- **Developed a React Native** mobile application enabling employees to check in and check

MedTech Full Stack Engineer – *Nov 2023 – Jan 2025*

CyberLiver Limited | *Chennai*

- **Developed and maintained platform-level APIs** using Python (FastAPI), Java, Firebase, and MySQL to support digital therapeutics applications for alcohol addiction, mental health, and cirrhosis.
- **Contributed to platform infrastructure,** ensuring seamless functionality across applications like AlcoChange, Companion App for AlcoChange, DryDay, BeeDry, BeeHappy, and Cognitive Behavioral Therapy (CBT) modules.
- **Enhanced backend capabilities** to manage user data, daily progress tracking, and dynamic content delivery — enabling real-time updates via clinical dashboards without requiring app-side modifications.
- **Implemented multilingual, personalized patient engagement solutions** for data collection and analysis, enabling the CirrhoX and AlcoX algorithms in therapeutic interventions.
- **Optimized master data loading** by structuring data into TSV files and updating master datasets during app startup, significantly reducing SQL query execution times and improving overall application performance.

MedTech Full Stack Engineer (Intern) – *Jun 2023 – Nov 2023*
CyberLiver Limited | *Chennai*

- **Migrated Java models to Python SQLAlchemy models,** streamlining the transition and ensuring compatibility with the evolving platform architecture.

Full Stack Java Developer (Intern) – *Jan 2023 – May 2023*
Shiash Info Solution Pvt Ltd | *Chennai (Remote)*

- **Completed a project titled 'Brunt Reversal Just-In-Time Glitch Prophecy,'** utilizing Java/J2EE (JDK 8).
- **Developed a web application for data warehousing** with unique ID generation and QR code scanning — significantly enhancing security, preventing data loss, and improving data retrieval efficiency.

TECHNICAL SKILLS

Programming Languages: Golang, Java, Python, JavaScript, TypeScript, CSS, HTML
Frontend & Mobile: React, React Native, Angular, Next, Ionic, Vite, Javascript and Typescript, Flutter
Backend Frameworks: FastAPI, Flask, Spring Boot, Grails, Node.js
Database Management: MySQL Workbench, DBeaver, PostgreSQL, MongoDB
Containerization: Docker
APIs & Integrations: RESTful APIs, GraphQL, Swagger, Postman, APIDog
Firebase Tools: Cloud Functions, Realtime Database, Firestore, Analytics
Version Control: Git, GitHub, GitLab, Bitbucket
Test Case Management: Zephyr Squad, JUnit, Postman, APIDog
Project Management: Jira, Atlassian Suite, Confluence
Productivity & Docs: Google Workspace (Sheets, Docs, Slides), MS Office (Excel, Word, PowerPoint)
Code Editors / IDEs: VS Code, IntelliJ Ultimate, PyCharm, Eclipse, Sublime Text, Android Studio, Xcode
Communication Tools: Slack, Microsoft Teams, Zoom, Zoho Cliq

CORE STRENGTHS

- **Technical Proficiency:** Expert in full-stack development with a strong command of Node.js, Angular, React, and Python (FastAPI/Flask).
- **Problem Solving:** Proven ability to translate complex business requirements into scalable, high-performance web applications.
- **Collaborative Development:** Experienced in cross-functional team environments, fostering seamless collaboration to deliver intuitive and reliable solutions.
- **Adaptability:** Quick to master emerging technologies and flexible in navigating evolving project demands across diverse domains.

SOFTWARE TRAINING COMPLETED

- Full Stack Development training in Java (Core Java).
- ReactJS, Angular
- MySQL
- HTML, CSS, and Bootstrap

ACADEMICS

Degree	College / School	University / Board	%	Year
BE MECH	Sri Balaji Chockalingam Engineering College, Arni	Anna University	85%	2023
HSC	Don Bosco Hr. Sec. School, Polur	State Board of Tamil Nadu	50%	2019
SSLC	Asian Matriculation School, Sengunam	State Board of Tamil Nadu	80%	2017
